

OTA B2C MASTER DESIGN SYSTEM & SCREEN GENERATION BIBLE

1. PROJECT OVERVIEW

Product Vision

Build a premium AI-first global OTA (Online Travel Agency) platform focused on:

- Hotel discovery
- AI-assisted travel planning
- Seamless booking experience
- Luxury modern UI
- Enterprise-grade user experience
- Global scalability

The platform should feel like a hybrid of:

- Airbnb (visual storytelling)
- Booking.com (inventory depth)
- Agoda (conversion-focused UX)
- Hopper (AI-driven experience)

This document serves as:

- Master product blueprint
 - Design system source of truth
 - Figma AI generation guide
 - Google Stitch generation guide
 - Frontend reference system
 - UX consistency framework
-

2. CURRENT PROJECT SCOPE

Included in Current Phase

B2C Website

- Public website
- Hotel booking flows
- AI travel assistant

- Customer dashboard
- Authentication
- Loyalty system
- Reviews
- Wishlist
- Offers
- Booking management

Light Admin (later stage)

- Basic dashboard
 - Bookings
 - Supplier overview
-

3. DESIGN DIRECTION

THEME STYLE

Theme Name

Luxury AI Travel Platform

Design Philosophy

The UI should feel:

- premium
- modern
- intelligent
- clean
- trustworthy
- cinematic
- globally scalable

Avoid:

- corporate-heavy enterprise UI
 - dark cyberpunk aesthetics
 - flashy gradients
 - cluttered dashboards
 - outdated OTA density
-

4. VISUAL DESIGN LANGUAGE

Core Style Principles

1. Spacious Layouts

Use generous whitespace.

2. Image-First Experience

Hotels and destinations should dominate visually.

3. AI-Enhanced UX

AI assistant should feel magical but elegant.

4. Premium Light Theme

Luxury minimalism.

5. Soft Depth

Use subtle shadows and elevation.

5. COLOR SYSTEM

PRIMARY COLORS

Royal Blue

Primary Brand Color

HEX:

2563EB

Usage:

- primary CTA
- navigation highlights
- active states

- pricing accents
 - search highlights
-

Cyan Accent

AI Accent Color

HEX:

06B6D4

Usage:

- AI assistant
 - smart recommendations
 - conversational elements
 - intelligent suggestions
-

PREMIUM ACCENT

Gold Accent

FBBF24

Usage:

- loyalty tiers
- VIP tags
- premium deals
- elite badges

Use minimally.

6. TYPOGRAPHY SYSTEM

PRIMARY FONT

Plus Jakarta Sans

Usage:

- headings
 - hero titles
 - large sections
 - premium titles
-

SECONDARY FONT

Inter

Usage:

- body text
 - forms
 - dashboards
 - cards
 - metadata
-

FONT SCALE

1440px

Content Width

1280px

Gutter

24px

SPACING SCALE

Use 8px system:

- 4
 - 8
 - 12
 - 16
 - 24
 - 32
 - 48
 - 64
 - 96
 - 128
-

8. BORDER RADIUS SYSTEM

Small

12px

Medium

16px

Large

20px

XL

24px

Use large rounded surfaces.

9. SHADOW SYSTEM

Card Shadow

Soft subtle elevation.

Floating Widget Shadow

Layered soft shadows.

Modal Shadow

Luxury depth effect.

Avoid harsh shadows.

10. IMAGE STYLE GUIDE

Imagery Style

Use:

- cinematic travel photography
- luxury hotels
- warm lighting
- aerial destination shots
- authentic travelers
- premium interiors

Avoid:

- generic stock photos
 - corporate office imagery
 - oversaturated travel photos
-

11. ICONOGRAPHY

Style

Outline icons preferred.

Use:

- Lucide
- Heroicons

Icons should be:

- clean
 - minimal
 - modern
-

12. ANIMATION SYSTEM

Motion Style

Subtle and premium.

Use:

- fade transitions
- hover elevation
- smooth scaling
- gentle motion

Avoid:

- aggressive animation
 - bouncing effects
 - heavy motion
-

13. CORE COMPONENT SYSTEM

GLOBAL COMPONENTS

Navigation Bar

Includes:

- logo
 - destination links
 - AI planner CTA
 - language selector
 - currency selector
 - login/signup
 - profile menu
-

Search Bar

Includes:

- destination input
- date selector
- guests selector
- AI search trigger

Variants:

- hero search
- compact sticky search
- mobile adapted later

Hotel Card

Includes:

- large image
- hotel name
- location
- rating
- review count
- amenities
- cancellation label
- meal plan
- AI recommendation tag
- pricing
- CTA

Variants:

- grid card
- list card
- compact card
- premium featured card

AI Recommendation Card

Includes:

- AI explanation
- hotel suggestion
- matching reason
- quick actions

Review Card

Includes:

- avatar
 - score
 - review text
 - verified badge
-

Booking Summary Widget

Includes:

- hotel
 - room
 - pricing
 - taxes
 - discounts
 - total
-

Filters Panel

Includes:

- price slider
 - star rating
 - amenities
 - meal plans
 - cancellation policy
 - property type
-

Offer Banner

Includes:

- destination imagery
 - offer title
 - countdown
 - CTA
-

AI Chat Bubble

Includes:

- AI avatar
 - response text
 - hotel cards
 - suggestion chips
-

14. MASTER SCREEN INVENTORY

SECTION A — PUBLIC WEBSITE

A1. Homepage

Sections

- hero banner
 - AI search
 - trending destinations
 - featured hotels
 - deals section
 - inspiration section
 - AI planner CTA
 - testimonials
 - newsletter
 - footer
-

A2. Destination Landing Page

Sections

- destination hero
 - hotel listings
 - travel guide
 - attractions
 - map preview
 - seasonal recommendations
-

A3. Search Results Page

Sections

- sticky search bar
- filters sidebar
- hotel listing
- sorting
- map view

- AI recommendations
 - pagination
-

A4. Map Search View

Sections

- full map
 - hotel pins
 - floating hotel cards
 - filters
-

A5. Hotel Details Page

Sections

- image gallery
 - hotel overview
 - amenities
 - room selection
 - reviews
 - policies
 - map
 - similar hotels
 - AI suggestions
 - sticky booking widget
-

A6. Room Selection Modal

Includes

- room images
 - occupancy
 - cancellation rules
 - pricing breakdown
 - room amenities
-

A7. Checkout Page

Sections

- traveler details
 - add-ons
 - insurance
 - payment
 - promo code
 - booking summary
-

A8. Payment Success Page

Includes

- booking confirmation
 - voucher download
 - itinerary
 - email confirmation
 - manage booking CTA
-

A9. Manage Booking Page

Includes

- booking details
 - cancellation
 - amendments
 - support
 - invoice download
-

A10. Wishlist Page

Includes

- saved hotels
 - destination collections
 - price alerts
-

A11. Offers Page

Includes

- seasonal offers
 - destination deals
 - exclusive discounts
-

A12. Reviews Page

Includes

- customer reviews
 - ratings
 - photos
 - AI summaries
-

A13. About Us

A14. Contact Us

A15. Blog/Travel Guides

A16. FAQ

A17. Terms & Policies

A18. 404 Page

A19. Empty States

Includes:

- no results
 - no bookings
 - empty wishlist
-

SECTION B — AUTHENTICATION

B1. Login

B2. Signup

B3. Forgot Password

B4. OTP Verification

B5. Social Login Flow

SECTION C — CUSTOMER DASHBOARD

C1. Dashboard Home

Includes

- upcoming trips
 - recommendations
 - loyalty points
 - recent searches
-

C2. My Trips

C3. Booking Details

C4. Loyalty Dashboard

C5. Wallet

C6. Notifications

C7. Profile Settings

C8. Saved Travelers

C9. Payment Methods

C10. Security Settings

SECTION D — AI ASSISTANT

D1. AI Landing Page

Includes

- suggested prompts
 - trending trips
 - AI inspiration
-

D2. AI Chat Interface

Includes

- conversational UI
 - hotel recommendation cards
 - quick replies
 - booking actions
-

D3. AI Recommendation Results

D4. AI Itinerary Generator

D5. AI Booking Flow

D6. Voice Interaction State

16. UX RULES

RULE 1

Always maintain visual hierarchy.

RULE 2

Primary CTA must always be visible.

RULE 3

Search should always remain accessible.

RULE 4

Booking widget should remain sticky on desktop.

RULE 5

AI assistant should never overwhelm core booking UX.

RULE 6

Use image-first storytelling.

RULE 7

Maintain premium whitespace.

RULE 8

Avoid cluttered OTA density.

17. AI GENERATION RULES

IMPORTANT

Every AI-generated page MUST follow these rules.

GLOBAL AI RULES

Rule 1

Use luxury light theme.

Rule 2

Use Plus Jakarta Sans headings and Inter body text.

Rule 3

Use 20px rounded cards.

Rule 4

Use soft premium shadows.

Rule 5

Use royal blue primary accents.

Rule 6

Use cyan AI highlights.

Rule 7

Use cinematic travel imagery.

Rule 8

Maintain spacious Apple-level layouts.

Rule 9

Keep layouts clean and conversion-focused.

Rule 10

Maintain consistency with previously generated screens.

18. MASTER GLOBAL PROMPT

Use this at the beginning of ALL AI-generated screen prompts:

"Design a premium AI-first global OTA platform with a luxury modern light theme. Use Plus Jakarta Sans for headings and Inter for body text. The platform should combine Airbnb-style visual storytelling, Booking.com-level inventory confidence, Agoda-style conversion-focused layouts, and Hopper-inspired AI travel experience. Use white surfaces, soft shadows, large rounded cards, royal blue primary accents, cyan AI highlights, cinematic hotel imagery, spacious Apple-level spacing, premium SaaS aesthetics, modern travel UI patterns, and enterprise-grade consistency. Maintain visual consistency with previously generated screens and reusable component system."

19. CORE PAGE GENERATION ORDER

PHASE 1 — FOUNDATION

1. Design system
 2. Navbar
 3. Footer
 4. Search bar
 5. Hotel cards
 6. Filters
 7. AI recommendation cards
-

PHASE 2 — CORE PAGES

1. Homepage
2. Search Results
3. Hotel Details
4. Checkout
5. AI Chat Interface

PHASE 3 — SECONDARY PAGES

1. Wishlist
 2. Offers
 3. Reviews
 4. Blog
 5. About
 6. FAQ
-

PHASE 4 — AUTH + STATES

1. Login
 2. Signup
 3. Empty states
 4. Error states
 5. Loading states
-

20. FIGMA ORGANIZATION STRUCTURE

FIGMA PAGES

01 Foundations

- colors
- typography
- spacing
- icons

02 Components

- buttons
- cards
- forms
- navigation
- widgets

03 Public Website

- homepage
- search
- hotel details

04 Dashboard

05 AI Assistant

06 Modals

07 Prototypes

21. CONSISTENCY STRATEGY

IMPORTANT

Never generate random isolated pages.

Always:

1. Generate components first
 2. Reuse components
 3. Reference previous screens
 4. Maintain same spacing
 5. Maintain same shadows
 6. Maintain same typography
 7. Maintain same image style
-

22. RECOMMENDED FIGMA AI WORKFLOW

STEP 1

Generate homepage.

STEP 2

Extract reusable components.

STEP 3

Convert to Figma components.

STEP 4

Generate search page referencing homepage.

STEP 5

Continue progressively.

Never generate all screens together.

23. FRONTEND PREPARATION STRATEGY

Recommended stack later:

- Next.js
 - Tailwind CSS
 - TypeScript
 - Framer Motion
 - Zustand/Redux
 - React Query
-

24. FUTURE EXPANSION READY

The design system should support future:

- mobile apps
- B2B portal
- enterprise admin
- flights
- transfers
- packages

- activities

without redesigning the foundation.

25. FINAL STRATEGIC APPROACH

This OTA should not feel like:

- a generic travel site
- a cloned booking platform
- a template marketplace

It should feel like:

"A modern AI-native global travel ecosystem."

The strongest differentiator should be:

- AI travel planning
- premium UX
- trust
- cinematic discovery
- frictionless booking

This document is the master source of truth for the entire design and frontend generation process.
